Childcare rates 2022 - explained.

- The government rate for childcare is €8.50 per hour. This is the amount used to calculate the childcare allowance from the Tax Authorities.
- Extra childcare is possible, but depends on staff scheduling and the relevant legislation. Extra care is available at a rate of €10,49. You can also use your exchange hours. See all the rules at korein.nl/en/childcare/exchanging-hours.
- Daycare is provided in full-day units (07:30 - 18:30). Some locations also offer half-days, subject to availability. A morning half-day is from 7:30 to 13:00 and an afternoon half-day is from 13:00 to 18:30. Some locations offer early opening times or extended opening hours. Ask the Planning & Advice department about the options.
- The 40-week arrangement involves 11 invoices per year. This means the number of hours and the cost per month are not in line with the information on your invoice. We do not send out invoices in August.
- For school holidays, we are in line with the official school holidays for state region South.
