Rates for toddler care 2022 Someren.

(for clients who are not eligible for a childcare allowance)

With effect from 1 January 2022, Korein charges the rates¹ listed below. These rates already take a possible municipal subsidy into account. Do you want to be eligible for a municipal-subsidy? When you have agreed to the placement, you will receive a contract with all relevant information from us. This states, among other things, that you must send us the most recent income details of you and your allowance partner (if this is the case). If we do not receive income data, you would have to pay the rate without subsidy³.
